## Pull request review record

The complete diffs for PRs #5 and #6 were inspected on 23 October 2026. GitHub showed no submitted reviews or reported check results. PR #5 contains mock/placeholder data, placeholder repository values, and stale-result behavior; main contains separately integrated corrections. PR #6 was merged by its author, but its sample data and pickle-based model were replaced during integration. These are integration review findings, not GitHub review approvals.

## Evidence note

The project uses GitHub usernames and assigned areas. The contribution record distinguishes integrated project work from member-authored work. It does not invent personal details, member statements, measured outcomes, or external feedback. Member sign-off and physical-device evidence are not available.
