AgriSoko Pocket G11 - Test Log

Group G11 | Version 1.0.0 | Recorded local automated checks and APK inspection | 23 October 2026

Automated checks recorded for the integrated source

Area	Command	Recorded result
API	python -m pytest -q (Python 3.12)	13 passed
Mobile	npm test	7 passed
Mobile	npm run typecheck	Passed
Expo	npx expo install --check	Dependencies up to date
Expo	npx expo-doctor	18/18 checks passed
Android bundle	npx expo export --platform android	Succeeded

EAS production APK

Build 51746a29-700a-438c-b3eb-3357ddd7fd9a succeeded. The downloaded APK is 66,660,923 bytes and its SHA-256 is AD64418C85B1B7AA56DCF3FC5F5DBF9AFA579038E4DCCC64C2343DEFA398F2A8. Archive inspection succeeded with 1,065 entries, including AndroidManifest.xml, classes.dex, resources.arsc, and native libraries. This confirms archive readability and identity with the downloaded artifact; it does not record APK installation or signature verification.

Additional validation status

The recorded automated checks describe their tested environment and were not rerun as part of this APK inspection. No physical-device installation or use, demo recording, or external user feedback is included.

Production API configuration

Inspection of the APK JavaScript bundle found http://10.0.2.2:8000, the Android emulator API fallback. A hosted production API URL was not embedded. Physical-device live API behavior requires deploying the API, configuring EXPO_PUBLIC_API_URL in the EAS production environment, and producing a replacement APK.
