# Group G11 Contribution Status

Alain (GitHub: alain143) ? Mobile UI and typed navigation task: DONE for the integrated app. The screens and navigation are present in the final app source (commit 4cdc9d9). PR #5 remains unreviewed/open on GitHub, and member sign-off remains pending; this status records integration, not a formal PR approval.

Other members: tasks remain as previously assigned; this document does not assert their implementation completion, personal names, signatures, metrics, or tester feedback.

Physical device testing and demo recording are still pending.
